## MEMORANDUM NO. 2021-34

**TO :** ALL ELECTRIC COOPERATIVES

**SUBJECT :** ENSURING RELIABLE OPERATIONS OF DISTRIBUTION SYSTEM AND FACILITIES IN ANTICIPATION OF POSSIBLE NATURAL DISASTERS OCCURRENCES DURING THE GOVERNMENT'S COVID-19 VACCINE ROLL-OUT PROGRAM

In connection with NEA Memorandum 2021-11 dated February 18, 2021 (attached for ready reference), the ECs are reminded that their distribution system and facilities must always be ready for the potential hazards of natural disasters in anticipation of their possible occurrences.

In this way, we can ensure the impact is reduced, hence, electric services can be restored immediately, especially to those who provide critical services to the people, such as government facilities.

The Covid-19 vaccination warehouses, storage hubs and vaccination centers must be provided for with reliable back-up electric generator set with enough stored fuel to ensure continuous power to the vaccination facilities in the event the power from the grid (generation, transmission and distribution facilities) is disrupted.

Please coordinate with the National Vaccination Operations Center through their email [c19vaccineopcen@gmail.com](mailto:c19vaccineopcen@gmail.com) or telephone number 0917-779-2735 to provide them with guidance in this regard.

For guidance and strict compliance.
