

Memorandum No. **2024 - 16**

TO : CONCERNED MINDANAO ELECTRIC COOPERATIVES  
SUBJECT : MONTHLY SUBMISSION OF WESM IMPACT  
DATE : APR 16 2024

Pursuant to Department of Energy (DOE) Circular No. DC2022-12-0039, promulgated on 23 December 2022, the Wholesale Electricity Spot Market (WESM) Mindanao commenced commercial operations on 26 January 2023.

At present, assessment of the commercial operations of WESM in Mindanao, updates and feedback on its impact on the Electric Cooperatives' (EC) operations is necessary to determine its efficacy. Gathering of information from the concerned ECs shall form part of NEA's monitoring to provide updates to the DOE in the evaluation of the performance of the Mindanao ECs in terms of their participation in the WESM. Hence, submission of data on the actual implemented Generation Charges, Total Energy Charges; and SAIFI and SAIDI figures (Pre-WESM and with WESM) will be used to provide the DOE fundamental elements in the development of WESM in Mindanao.

Relative to this, Mindanao ECs are directed to submit the monthly updates and feedback on the impact of WESM in the ECs operations. Reports shall be submitted every 1st Monday of the succeeding month through email [rates.rao@gmail.com](mailto:rates.rao@gmail.com) for consolidation.

Non-compliance/non-submission of the requested data may affect the ECs overall performance assessment and/or may warrant issuance of a show cause order.

For your strict compliance.
