NEA MEMORANDUM No. 2005-031

TO : ALL ELECTRIC COOPERATIVES

SUBJECT : EXTENSION OF THE DEADLINE ON APPLICATION AND APPROVAL OF CAPS ON THE RECOVERABLE RATE OF SYSTEM LOSSES WITH THE ENERGY REGULATORY COMMISSION (ERC)

Please be informed that a meeting was conducted by ERC through Commissioner Jesus N. Alcorido attended by NEA, PHILRECA, and Private Distribution Utility Officials last October 28, 2005 at the ERC Building, San Miguel Avenue, Pasig City. The meeting was about the November 5, 2005 DEADLINE of submissions of above-mentioned subject.

During the meeting, the compliance to such deadline by ECs was discussed. It was admitted that a lot of ECs cannot comply with the ERC requirement on time due to the volume of information needed to be gathered from the distribution line system. As a result, the ECs are requesting an extension for the deadline of submission.

Commissioner Alcorido has agreed in principle for the granting of six (6) months extension or until April 30, 2006, and official announcement will be released soon after the deliberation and approval of the ERC Chairman and Commissioners. As such, NEA was directly requested by Commissioner Alcorido to submit a monthly monitoring report, and continue to assist the 119 Electric Cooperatives in the System Loss Segregation activities.

In this regard, NEA therefore directs each EC to comply and submit a monthly status report on DSL Segregation. For uniform report, attached is the form which contains the needed information/data in the preparation of a monthly report to be submitted to NEA as soon as possible for the initial report and every 20th day of the month for the succeeding reports, which NEA will formally forward to ERC.

For your guidance and strict compliance.
