**SUBJECT : Nationwide Campaign for the Efficient Use of Energy**

All ECs are enjoined to actively participate in the Nationwide Campaign for the Efficient Use of Energy. To promote the government's campaign, we are providing you with information materials from the Department of Energy, which you will find useful in educating your respective member-consumers on the importance of energy conservation.

Through this program, it is not only our own personal savings that we will be able to realize. Over time, our collective practice of using energy wisely will also help alleviate the nation as a whole.

For your compliance.
