National Electrification Administration

"The 1st Performance Governance System - Institutionalized National Government Agency"

30 September 2010

MEMORANDUM No. 2010-022

TO : ALL ELECTRIC COOPERATIVES (ECs)

SUBJECT : Performance Governance System (PGS):
Pathway to Good Governance

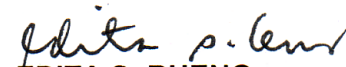

In partnership with the ECs, the National Electrification Administration (NEA) once again sparked another milestone when it was recognized as "PGS-Institutionalized" on 23 September 2010 by the Institute for Solidarity in Asia (ISA). With this recognition, NEA is the first "PGS-Institutionalized" national government agency in the country.

ISA is an independent, non-partisan, not-for-profit institution that seeks to improve public governance through globally recognized framework of the PGS which applies the Balanced Scorecard to track the agencies' performance against a set of goals. It assists public sector organizations to improve their governance practices and raise them to global standards through the PGS.

NEA started embracing the PGS four (4) years ago as it traversed the different stages of the PGS Pathway. It was cited "PGS-Initiated" on 30 August 2007 when it has responded to the ISA's program parameters of redefining its Charter Statement and formulating its Roadmap and Scorecard. Subsequently, it was elevated as "PGS-Compliant" and "PGS-Proficient" in rites held on 29 August 2008 and 25 September 2009, respectively. NEA made a history for attaining the final and fourth level. "PGS-Institutionalized," after having gone through a systematic process conducted by ISA and its third party auditors that involved a series of meetings, follow-through activities and audits, evaluation, validation and revalidation of specific performance breakthrough results and milestones. Attached is its recognition in form.

This achievement is a clear manifestation of our desire to make a difference by providing quality service to our stakeholders and to lead by example. In our efforts to propagate the principles and practices of corporate good governance, we shall develop a program that will help enhance the ECs' competitive edge on this perspective.

Finally, we wish to extend our gratitude to all the ECs which have given their full participation and genuine support to this privileged undertaking.
