March 22, 2010

MEMORANDUM No. 2010-008

FOR : ALL ELECTRIC COOPERATIVES
SUBJECT : MONTHLY REPORT ON THE STATUS OF ENERGIZATION

Now that the electrification of the barangays reached its final phase, focus will be towards the energization of sitios and purok. To date, there are 98,589 identified sitios & puroks in the coverage area of the electric cooperatives, of which 69% or 68,037 had been with electricity. Just like the electrification of the barangays, accomplishments will be monitored to measure the status of program implementation.

In this regard, we are recommending the adoption of the attached report format filled up as sample, for this purpose. This format summarizes individual electric cooperatives' accomplishments for the month in terms of sitio & purok energization and consumer connections.

Moreover, please complete the information required in the form for the newly energized sitios & puroks (i.e. date of energization, fund source, power source and initial connections) for database updating.

For electric cooperatives, which have not submitted and/or completed the list of sitios & puroks in their respective franchise area, please forward to NEA updated inventory-indicating status as to energized or unenergized. This is to complete the information on the national basis and for allocation of funds in cases that they still are unenergized.

We would appreciate receiving your Monthly Report on the Status of Energization on a regular basis not later than the 15th day of each succeeding month to Database Management & Program Control Division, IT & Communication Services Department through electronic mail address neadmecd@yahoo.com for consolidation and reportorial purposes.

We look forward to the total electrification of the country by 2020.

For your compliance.
