National Electrification Administration

"The 1st Performance Governance System - Institutionalized National Government Agency"

10 May 2012

MEMORANDUM No. 2012-013

TO : ALL ELECTRIC COOPERATIVES

SUBJECT : Sitio Electrification Program

The NEA is finalizing the master list of sitios to be able to do the Master Plan for their energization from 2012 to 2015. As of December 2011, there are 33,723 remaining unenergized sitios in the country. These are scheduled for energization as follows:

YEAR	TOTAL NUMBER OF SITIOS
2012	5,643
2013	6,500
2014	10,729
2015	10,851
TOTAL	33,723

The government fully supports the above program as it is included in the economic and development framework of the President and is one among his priority programs. Thus to give equal opportunities to both urban and rural dwellers, accounting of beneficiaries or consumer connections is necessary to ensure that the objective of the program had been met.

In particular, for 2012, included in the General Appropriations Act or Republic Act No.10155, is the amount of P 2,568,500,000.00 for Sitio Electrification and Barangay Line Enhancement Projects. There are requirements which need to be fulfilled. The release of funds is anchored on the following: certification from the barangay chairman on the authenticity of the list of sitios for energization, potential consumers and accessibility.

It is necessary therefore that the ECs, in their interaction with the Barangay officials, should already secure the required certification to fast track project implementation. You can closely coordinate with your leaders and members on the mechanism of securing these requirements.

We have attached the list of inventoried unenergized sitios which you earlier submitted, for your own final review and validation with your barangay leaders. All ECs are expected to comply with this requirement to be included in the electrification masterplan. Please complete the information in the columns provided, and upon completion secure the certification of the Barangay Chairman or any other authorized official.

We appreciate receiving your complete report on or before 10 June 2012.

Our success of 1,520 sitios with 30,000 connections in the 4th quarter of 2011 only showed that ECs always want to excel and be recognized. This is another grand opportunity, and let us all do it!
