MEMORANDUM No. 2014-020

TO : ALL ELECTRIC COOPERATIVES

SUBJECT : MONTHLY REPORT ON THE OPERATIONS AND PERFORMANCE OF GENERATING FACILITIES

RA 10531 recognizes the significant role of the electric cooperatives in the generation of electric power amidst the looming shortfall in power supply. Under Section 9 of RA 10531 and Section 10 of the Implementing Rules and Regulations, the electric cooperatives are authorized to acquire generating facilities and engage in the generation of electric power.

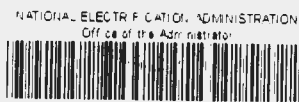

In order that the Department of Energy (DOE), the Energy Regulatory Commission (ERC) and the NEA will be able to determine and be guided on the availability and reliability of the power supply and match the supply and demand curbs, there is a need to have a data base and statistics on the operations and performance of the generating facilities including those operated by the electric cooperatives.

In view thereof and in compliance with the last paragraph of item III, letter b) of Section 10, Rule III of the Implementing Rules and Regulations (IRR) of RA 10531, please submit your monthly report on the operations and performance of your electric cooperative's generating facility/ies to DOE, ERC and NEA not later than the 15th day of the succeeding month.

Electric cooperatives which do not have any generating facility are, nevertheless, required to submit a report by indicating therein the fact that they have no generating facility. Under this circumstance, and in the event that any such EC acquires generating facility/ies, it will have to submit the required monthly report as provided by law.

Please be guided accordingly.
