MEMORANDUM No. 2014-025

TO : ALL ELECTRIC COOPERATIVES (ECs)

SUBJECT: PERTINENT PROVISIONS OF REPUBLIC ACT 9513 ON ON-GRID RENEWABLE ENERGY DEVELOPMENT

With the passage of Republic Act 9513, "An Act Promoting the Development, Utilization and Commercialization of Renewable Energy Resources and for Other Purposes", otherwise known as the Renewable Energy (RE) Act of 2008, the Energy Sector, particularly the Electric Distribution Utilities, face new challenges in the forms of the Feed-In Tariff System and the Net Metering Program which are mandated to be complied with.

On-grid Electric Cooperatives are covered by the RE Act of 2008 and the Net-Metering Rules and therefore obliged to allow and support RE interconnection and electricity export by qualified end users (QE).

Pursuant to the legislative intent of R.A. 9513, please be advised that mechanisms for two (2) sections under Chapter III have already been approved and in effect, to wit:

1. Sec.7. Feed-In Tariff System

- ERC Resolution No. 10, Series of 2012, "Approving the Feed-In Tariff Rates" approved on 27 July 2012; and
- ERC Case No. 2014-109 RC, Granting TRANSCO Provisional Authority for the imposition of its proposed FIT-All rate for Calendar Years 2014 and 2015

2. Sec. 10. Net-Metering for Renewable Energy

- ERC Resolution No. 09, Series of 2013, "Adopting the Rules Enabling the Net-Metering Program for Renewable Energy" which took effect on 24 July 2013

For your guidance.
