

November 4, 2015

MEMORANDUM No. 2015-033

TO : ALL ELECTRIC COOPERATIVES

SUBJECT : 2014 SIZE CLASSIFICATION OF ELECTRIC COOPERATIVES

The electric cooperatives (ECs), as the implementing arm of the NEA in bringing electricity to the countryside, are able to spread the benefits of electrification on a wider scale through the expansion of distribution lines and dramatic increase in consumer connections.

The classification of the ECs according to size constitutes as one of the factors in determining the applicable benefits, allowances and incentives of EC officials and employees under NEA Memorandum No. 2015-007 series of 2015.

In determining the classification of ECs according to size for 2014, the average volume of MWH sales, consumer connections and kilometer of lines constructed for the three year period 2012 to 2014 were used as criteria. Fifty six (56) ECs are classified as Mega Large, thirty four (34) ECs as Extra Large, twenty one (21) ECs as Large, six (6) ECs as Medium and four (4) ECs as Small.

Below are the rating criteria applied with the corresponding point score.

I. RATING CRITERIA

1. Volume of Average MWH Sales

Average Sales Volume	Point Score
150,001 & above	40
100,001 - 150,000	35
50,001 - 100,000	30
25,001 - 50,000	25
25,000 & below	20

2. Number of Connections

Average Connections	Point Score
100,001 & above	30
50,001 - 100,000	25
20,001 - 50,000	20
10,001 - 20,000	15
10,000 & below	10

3. Average kms of lines

Average length of lines	Point Score
3,301 & above	30
2,201 - 3,300	25
1,001 - 2,200	20
501 - 1,000	15
500 & below	10

II. OVERALL POINT SCORE

Point Score	Classification
85 - 100	Mega Large
70 - 84	Extra Large
55 - 69	Large
45 - 54	Medium
44 & below	Small

III. FINAL RESULTS OF EVALUATION

Classification	Number of ECs	Percentage
Mega Large	56	46%
Extra Large	34	28%
Large	21	18%
Medium	6	5%
Small	4	3%
Total	121	100%

We attached herewith the following annexes:

- A. Size Classification of ECs per region
- B. Size Classification of ECs according to size
- C. Summary of Evaluation on EC Size Classification

The criteria being used shall be subject to a regular review in order to be more responsive to the demands and challenges of the power industry.

For your information and guidance.

EDITA S. BUENO
Administrator
