ADVISORY FOR ALL CATEGORY B AND C ECs

SUBJECT : Priority Planning Conference for Category B and C ECs

RA 10531 mandates the NEA to empower and enable ECs to cope with the changes brought about by the restructuring of the electric power industry pursuant to RA 9136. The establishment of Key Performance Standards (KPS) enables monitoring of EC performance in various parameters to ensure continued financial and operational viability.

NEA Memorandum No. 2016-015, "Calendar Year 2015 EC Overall Performance Assessment and Size Classification" dated June 24, 2016 shows that there are thirteen (13) ECs under Category B and twelve (12) are under Category C.

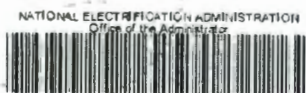

Relative thereto, all twenty five (25) ECs under Category B and C are enjoined to attend the Priority Planning Conference which will be held on January 5-6, 2017 at HESA, NEA Bldg., Quezon City.

During the said conference, the ECs' current status will be presented by both the ECs and NEA followed by a workshop to identify challenges and action steps, to develop ECs' shared practical vision and a commitment signing as a culminating activity for the two-day conference.

All Board Presidents, General Managers, Department Managers (Finance, Institutional, Technical, Audit and Corplan) are enjoined to attend.

For your strict compliance.
