MEMORANDUM No. 2016-025

TO : ALL ELECTRIC COOPERATIVES (ECs)

SUBJECT : World Bank Project on NEA Web Portal and Business Intelligence

The World Bank with the European Union Financing extended financial grant to the National Electrification Administration for the development of the Web Portal and Business Intelligence for the Electric Cooperatives' (ECs) reportorial requirements. The development will be handled by Indra, the World Bank IT partner, who will also assist in the implementation.

The project was introduced during a Consultative Workshop on Scoping and Design of the NEA-IT System on March 6, 2015 which was attended by 26 NEA and 23 participants from 13 ECs. It aims to build data repository and data entry facility to ease submission of information by the ECs, to reduce multiple submissions and redundant requests for reports and to strengthen NEA's analytic capabilities through new application. The system will be implemented without monthly subscriptions from the ECs.

The ECs are enjoined to support this undertaking by fully participating in the subsequent activities, communication on the details for which will follow.

For your information and guidance.
