

TABLAS ISLAND ELECTRIC COOPERATIVE, INC.
(TIELCO)
 Odiongan, Romblon

THIRD PARTY BIDS AND AWARDS COMMITTEE

Supplemental/Bid Bulletin No. 5

Procurement of a Power Supply Agreement (PSA) for the Intermediate, Peaking, and Reserve Requirements of Tablas Island

This **Supplemental/Bid Bulletin No. 5** is being issued to provide additional provisions/specifications in the Bidding Documents for the aforementioned project:

A. Response to queries/clarification from Aggreko Energy Rental Solutions, Inc.

	QUERY	RESPONSE
1.	How the “Unserved Energy” is determined	As stated in PSA 6.1, Unserved Energy shall be calculated from the analytics system maintained by TIELCO, which relies on daily reports submitted by GENCO. and PSA 6.2, “For each time interval with Generation-side Outages, offtake in kWh for the preceding 7th, 14th, and 21st days will be obtained by TIELCO from its analytics system. The highest among the three shall be deemed the Unserved Energy for the subject time interval.”
2.	How fuel consumption for the contract will finally be resolved through individual flowmeters or sounding at bulk storage.	Fuel flow meters (or equivalent thereof) have to be installed for all generating units. While “sounding” at the bulk storage is also a common practice, this could cause wastage and/or pilferage to be charged to UCME, which is the lifeblood of small island ECs.

8.3. Decisions of TIELCO TPBAC amending any provision of the Bidding Documents shall be issued in writing through a Supplemental/Bid Bulletin at least fourteen (14) calendar days before the Deadline of Submission and Opening of Bids as indicated in the Invitation to Bid (DOSO).

For guidance and information of all concerned.

Let copies of these be given to Prospective Bidders, DOE and NEA.

Issued this 7th day of September 2022 in Odiongan, Romblon.

Approved by:

ENGR. AMANTE S. JANDOC, JR.
 Third Party Bids and Awards Committee Chairman
