

ADVISORY

TO : ALL ELECTRIC COOPERATIVES (ECs)

Attention : MSD/ISD Managers

SUBJECT : 2018 NUMBER OF SITIOS AND ESTIMATED NUMBER OF HOUSEHOLDS PER EC COVERAGE AREA

DATE : March 8, 2018

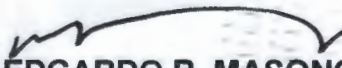

In our continuing effort to synchronize the parameters in determining the level of energization, we have posted in the NEA website (www.nea.gov.ph) the following based on our masterlist as of January 2018:

1. Level of overall sitio electrification incorporating the results of the 2017 SEP summit;
2. Adjusted level of potential consumer connections based on the 2015 Census of Population and Households and corresponding growth rate per province; and
3. Municipal/City Geo-codes for NEA-BIT submission of template for Status of Energization (SOE).

With the implementation of Memorandum 2018-005 re: Enhanced EC Overall Assessment Criteria wherein the level of consumer connections constitutes 3%, NEA's assessment for 2018 will be based on the posted number of potentials. We encourage therefore the ECs to study the parameters to avoid conflicts come assessment period.

For question and clarifications, please contact the Data Management and Program Control Division (DMPCD) at telephone number (02)9280326 or via email at neadmecd@yahoo.com.

For your guidance.
