MEMORANDUM NO. 2022-01

TO : ALL ELECTRIC COOPERATIVES

SUBJECT : REITERATION OF NEA MEMORANDUM NO. 2021-58
RE CONDUCT OR PARTICIPATION OF ELECTRIC
COOPERATIVES IN TASK FORCE KAPATID DATED 22
DECEMBER 2021

Anent the earlier Memorandum issued on the above subject, we again remind the ECs, particularly the General Managers, the Board of Directors and Department Managers directly coordinating the participations of their ECs to the ongoing activities of TFK, to immediately refrain and/or enjoin their respective personnel from conducting, showing or giving the impression that they are "sponsored" by certain political and/or party list groups.

Such show of support to political and/or party list groups by displaying tarpaulin signages with particular name/s and/or logo/s of said groups will be construed as participating in partisan political activities by ECs and is prohibited by law, specifically the Omnibus Election Code. Natural and juridical persons operating a public utility such as ECs are specifically prohibited by law from giving contributions, directly and indirectly, for purposes of partisan political activities, and such contributions may also be in the form of the use of facilities voluntarily donated.

Thus, ECs are enjoined to display their heroism, selflessness and sacrifice beyond call of duty in helping the disaster-stricken ECs and MCOs by proudly displaying their individual identities as ECs working under the TFK and not under the auspices of any partisan political and/or party list groups.

For immediate and strict compliance.
